2012

ANNUAL REPORT

Service Nova Scotia and Municipal Relations

Vital Statistics

His Honour Brigadier-General The Honourable
J.J. Grant, CMM, ONS, CD (Ret'd)
Lieutenant Governor
Province of Nova Scotia

Your Honour :

I have the pleasure of presenting the Report of the Registrar General containing the Vital Statistics of the Province for the year ending December 31, 2012.

Mark Furey
Registrar General

To The Honourable Mark Furey
Registrar General
Province of Nova Scotia

Sir :

It is my privilege to present to you the Report of the Deputy Registrar General containing the Vital Statistics of the Province for the year ending December 31, 2012.

Michelle MacFarlane
Deputy Registrar General

Part I
Introduction and Highlights of Statistics

Introduction

The 2012 Annual Report of births, deaths, stillbirths, marriages and domestic partnerships is compiled by the Vital Statistics Unit of Service Nova Scotia and Municipal Relations. Data on vital events occurring in Nova Scotia has been published since 1917. The information presented in the following charts and tables is based upon data collected on vital event registrations.

The *Vital Statistics Act* (Chapter 494 of the Revised Statutes of Nova Scotia, 1989) requires that all births, deaths, stillbirths, marriages, and domestic partnerships in the province be registered with the Vital Statistics Office.

Vital Statistics is also responsible for administration of the *Solemnization of Marriage and Change of Name Acts* of Nova Scotia.

The provincial registration system serves two primary functions:

1. to obtain and preserve the documentary evidence necessary to provide individuals with official proof of the facts concerning a birth, death, stillbirth, marriage or domestic partnerships; and

2. to provide information and statistics to health professionals and planners for public health surveillance, health education and promotion, epidemiological research, and health planning.

Vital Event Data

This report summarizes information on vital events that occurred in the province to Nova Scotia residents. It excludes events to non-residents except where specifically noted. Statistics relating to Nova Scotia residents who gave birth, were married or died outside the province are also excluded. Marriage statistics summarize all events that occurred in the province to either residents or non-residents.

To maintain confidentiality, identifying information for individuals is not disclosed. At the national level Nova Scotia Vital Statistics, along with all other Canadian provinces and territories, shares data with Statistics Canada for further compilation, analysis, reporting and comparison. Information on vital events that occur to Canadians outside their province of usual residence is made available through their publications.

Time Periods

This report covers events occurring in the calendar year 2012. Selected tables present aggregate data across a number of years.

Population Data

Population estimates were provided by the Demography Division of Statistics Canada.

Medical Coding

Medical Certificates of Death and Stillbirth provide information on the immediate cause of death or stillbirth, antecedent causes giving rise to the immediate cause, and other significant conditions

contributing to the death or stillbirth. The World Health Organization's International Classification of Diseases (ICD) coding scheme is used to assign the appropriate medical codes. This information is processed by Statistics Canada in Ottawa, using scanned images of Registrations.

Since the early 1900's, the International Classification of Diseases has been revised regularly in order to reflect advances in medical science and changes in diagnostic terminology. The ninth revision of ICD (ICD-9) was used for medical coding until 1999. Coding according to the tenth revision of ICD (ICD-10) was implemented nationally as of January 1, 2000.

Acknowledgments

Vital Statistics would like to acknowledge and thank the many groups and individuals who ensure complete and accurate recording of vital events, including our division registrars of births, deaths and stillbirths located in hospitals and funeral homes, deputy issuers of marriage licenses, physicians who certify causes of death and stillbirth and the Provincial Medical Examiner's office at the Department of Justice. Vital Statistics also wishes to thank and acknowledge Sarah Galloway, Research and Statistical Officer for Vital Statistics, for her contribution as the primary author of this report.

Other Information and Contact Information

More information on the Vital Statistics Unit of Service Nova Scotia and Municipal Relations is available on our website at http://www.gov.ns.ca/snsmr/vstat/. Previous years' Annual Reports, back to, and including 2002, may be accessed online.

Summary of Operating Statistics

Vital Statistics is mandated to provide the public with services relating to vital events that occur in Nova Scotia, in accordance with the *Vital Statistics Act*. To meet this mandate, the office is responsible for maintaining the provincial registry for births, deaths, stillbirths, marriages, and domestic partnerships and for issuing certificates for these events. The registry maintains data that assist in the decision-making process for health planning and monitoring, policy formulation and comparisons with other jurisdictions across time, and for preparing statistics for the public for business planning, trend analysis, etc. Additional services, provided under the *Solemnization of Marriage Act* and the *Change of Name Act*, include: registration of clergy and civil marriage officiants, issuance of marriage licenses, and registering legal changes of name.

Services provided, Vital Statistics 2012:

SERVICES	TOTAL NO:
BIRTH, DEATH, AND MARRIAGE CERTIFICATES ISSUED	39,914
BIRTHS, DEATHS, MARRIAGES, STILLBIRTHS, AND DOMESTIC PARTNERSHIPS REGISTERED	22,141

On a Typical Day in Nova Scotia in 2012

24 LIVE BIRTHS OCCURRED IN THE PROVINCE TO NOVA SCOTIA RESIDENTS:

12 males and 12 females
9 babies were born every 7 days to teenage mothers
11 babies were born to parents not married to each other
2 live births were registered with no father named
10 low birth weight babies were born every 7 days (< 2500 grams)
1 multiple birth occurred every 3 days
1 stillbirth occurred every 5 days

23 DEATHS OCCURRED IN THE PROVINCE TO NOVA SCOTIA RESIDENTS:

11 males and 12 females
6 deaths were due to diseases of the circulatory system including:
3 - deaths from heart disease
1 - death from cerebrovascular diseases
7 deaths were due to cancer including:
2 - from lung cancer
2 deaths were due to diseases of the respiratory system
1 death resulted from accident or violence
1 death every 3 days were due to diabetes
2 deaths every 3 days were due to Alzheimer's disease
1 infant death occurred every 10 days

12 MARRIAGES WERE SOLEMNIZED IN NOVA SCOTIA:

6 were civil ceremonies and 6 were performed by religious representatives
8 marriages were to couples where both parties were marrying for the first time
1 marriage every 92 days was to a couple where both parties were teenagers

1 DOMESTIC PARTNERSHIP DECLARATION WAS FILED EVERY 8 DAYS

Summary of Vital Events

Since 1952 the population of Nova Scotia has increased by approximately 45%. Demographic and social changes have had a dramatic impact on vital events. The birth rate has fallen to less than half the rate seen in the early 1960's, yet mortality rates have remained more or less static. The net result, in 2012, is a 'natural increase rate' of only 0.3, as the number of deaths approach the number of births each year. Emigration and immigration are not included in natural population growth rates.

- In 2012 there were 8,685 live births in Nova Scotia to NS residents. The number of live births decreased by 142 births from 8,827 births in 2011. The birth rate is 9.2 births per 1,000 population.
- There were 8,368 deaths of Nova Scotia residents in 2012, down 157 deaths from the previous year. The death rate was 8.9 deaths per 1,000 population. The leading causes of death in Nova Scotia are diseases of the circulatory system and cancer; in 2012, deaths from these causes made up 57.7% of all deaths.
- A total of 4,441 marriages were solemnized in Nova Scotia in 2012. The marriage rate per 1,000 population is 4.7, the same as the 2011 rate. Marriage statistics include all marriages that took place in the province, including those where one or both parties were non Nova Scotia residents.
- Same-sex marriage was legalized in Nova Scotia in September of 2004. During 2012, there were 108 same-sex marriages solemnized in the province. Of those marriages, 39 were of male couples, and 69 were of female couples.
- There were 74 stillbirths to residents of Nova Scotia in 2012. The stillbirth rate was 8.5 per 1,000 total births (live births and stillbirths).
- In 2012 there were 39 infant deaths (age at death less than one year) in the province, for an infant mortality rate of 4.5 per 1,000 live births. Of these 39 infant deaths, 33 were neonatal deaths, occurring to infants under one month of age. The infant death rate in the past five years has ranged from 3.3 to 4.8.

Table I

Population of Nova Scotia

1952–2012

The population of the province in the following table is given for reference purposes and comparison for the period 1952-2012

YEAR	POPULATION		YEAR	POPULATION

Part II
Detailed Summaries and Tables

Summary of Birth Statistics

- In 2012 there were 8,685 births to residents of Nova Scotia, of which 51.4% were males (4,464) and 48.6% were females (4,218). There were three births for which sex was indeterminate.
- There were 113 births in Nova Scotia to non-residents of the province.
- The vast majority of births – 99.4% – occurred in hospital.
- Victoria and Halifax counties experienced the highest birth rate per 1,000 population at 11.0 and 10.1 respectively.
- Queens and Richmond counties experienced the lowest birth rate per 1,000 population at 5.1 and 6.0 respectively.
- The 5 most populated counties together had 6,463 births or 74.4% of all the births in Nova Scotia. Births in Halifax accounted for 47.5% of the total births in the province for 2012.
- The provincial birth rate for 2012 was 9.2 births per 1,000 population. This compares to the Canadian national birthrate of 11.2 for 2012.
- Only 6.3 % of babies born in Nova Scotia in 2012 had a birth weight under 2500 grams.
- In 2012 there were 2 births to a women under the age of 15, and 474 births to women aged 15-19, for a total of 476 births to teenaged mothers. This represents 5.5% of all live births for 2012. There were 184 births to teenaged fathers (aged 19 or younger), or 2.1% of live births.
- Of the 476 births to teenaged mothers, 127 were to fathers who were also 19 years of age or younger. This means 1.5% of live births in 2012 were to parents who were both teenagers.
- In 2012, 48.5% of live births were to women aged 20-29, 43.4% of live births were to women aged 30-39, and 2.6% were to women aged 40 or older. The median age of women who gave birth in 2012 was 31 years, while for first-time mothers in Nova Scotia the median age was 29 years.
- There were 144 births to parents who were both 40 years of age or older. This represents 1.7% of live births. The oldest mother was 49 years of age and the oldest father was 63.
- There were a total of 137 multiple births in Nova Scotia in 2012- 135 births were twins and 2 births were triplets.

Another Way to Present Birth Information

Of every 100 live births in Nova Scotia in 2012, approximately

- *6 were to teenaged mothers aged 19 or under (476)*
- *48 were to mothers aged 20-29 (4,209)*
- *43 were to mothers aged 30-39 (3,774)*
- *3 were to mothers aged 40-49 (224)*
- *2 were to a teenaged father aged 19 or under (184)*
- *33 were to fathers aged 20-29 (2,922)*
- *47 were to fathers aged 30-39 (4,096)*
- *9 were to fathers aged 40-49 (789)*
- *<1 was to a father aged 50-59 (60)*
- *<1 was to a father aged 60 and over (5)*
- *7 were to fathers whose age was not stated (629)*

Summary of Death Statistics

- In 2012, there were 8,368 deaths occurring to residents of Nova Scotia, of which 49.4% were males (4,131) and 50.6% were females (4,234). There were three deaths for which sex was indeterminate.
- Guysborough County experienced the highest death rate per 1,000 population at 17.4. Cumberland and Annapolis counties had the second and third highest at 12.8 and 12.1 respectively.
- Halifax and Antigonish counties experienced the lowest death rates per 1,000 population at 6.7 and 6.9 respectively.
- The provincial death rate for 2012 was 8.9 deaths per 1,000 population.
- There were 2,244 deaths due to diseases of the circulatory system in Nova Scotia, which is 26.8% of all deaths. Of these:
  - 581 were due to chronic ischemic heart disease – 6.9% of all deaths
  - 448 were due to acute myocardial infarction (heart attack) – 5.4% of all deaths
  - 496 were due to cerebrovascular disease, including stroke – 5.9% of all deaths
- There were 2,535 deaths due to malignant neoplasms (cancer) in Nova Scotia, 30.3% of all deaths. The greatest number of these deaths were due to cancer of the trachea, bronchus, and lung (727 deaths), colon cancer (186 deaths), and breast cancer (177 deaths).
- There were 429 deaths due to chronic obstructive pulmonary disease, 5.1% of all deaths.
- There were 297 deaths due to diseases of the digestive system, including liver disease – 3.5% of all deaths.
- There were 459 deaths due to accidents and unintentional injury – 5.5% of all deaths.
- There were 244 deaths due to diabetes – 2.9% of all deaths.
- There were 175 deaths due to influenza (8) and pneumonia (167) – 2.0% of all deaths.
- There were 118 deaths due to intentional self-harm (suicide).
- Nova Scotians are most likely to die in hospital:
  - 4,883 died in hospital
  - 1,546 died at home
  - 1,666 died in another healthcare facility (i.e. nursing home)
  - 273 died at another locale
- 49.3% of those who died during 2012 were aged 80 years or over.

*** *Rate per 100,000 census population*

** *Rate per 100,000 estimated population for intercensal years, except where noted as otherwise*

* *Prior to 1950, total of Class VII, Diseases of the Circulatory System, with the addition of No. 58, Acute Rheumatic Fever, was taken from Class III. From 1950 onward, Class VIII includes Acute Rheumatic Fever.*

Summary of Stillbirth, Maternal Death and Infant Death Statistics

- Stillbirths are defined as delivery of a fetus that is 500+ grams in weight or 20+ weeks in gestation and where there is no breathing, beating of the heart, pulsation of the umbilical cord or unmistakable movement of voluntary muscle.
- In 2012 there were 74 stillbirths to mothers who were residents of Nova Scotia, which is a rate of 8.5 per 1,000 live births. The Canadian national rate for stillbirths in 2009 (the last reported year) was 7.1 per 1,000 live births.[1]
- In 2012, there were 39 infant deaths (death occurring to a child under 1 year of age) in the province, for an infant mortality rate of 4.5 per 1,000 live births. Of these 39 infant deaths, 33 were neonatal deaths, occurring to infants under one month of age. The infant death rate in the past five years has ranged from 3.4 to 4.8. The Canadian national infant death rate for 2010 (the last reported year) was 5.0 per 1,000 live births.[2] Nova Scotia has been consistently at or below the national infant death rate.
- The leading category of causes of infant death in Canada is 'Certain Conditions Originating in the Perinatal Period,' which includes conditions which have their origin in the perinatal period (before and during labour) even though death (or morbidity) occurs later.[3,4] This is also the leading cause of infant death in Nova Scotia. There were 19 deaths in this category. For specific causes of death in this category, please see Table XVI.
- There were 12 infant deaths attributable to congenital malformations, deformations, or chromosomal abnormalities.

Summary of Marriage and Domestic Partnership Statistics

- In 2012, 4,441 marriages took place in Nova Scotia. This includes all marriages that occurred in the province, including the marriages of non-residents.
- Of those 4,441 marriages:
  - 4,333 were opposite sex couples
  - 69 were same sex female couples
  - 39 were same sex male couples
- The median age for a first marriage in 2012 was 30 years. For men, the median age was 32 years and for women, 30 years. 3,350 single women and 3,260 single men married in 2012.
- The median age of those marrying for the 2nd or subsequent times was 44 years. For 1,064 women and 1,134 men marrying in 2012 this was not a first marriage.
- 2,191 marriages in 2012 were solemnized by a clergy member, while 2,250 were civil ceremonies.
- Summer is the most popular time for a wedding: August was the most popular month, with 970 weddings, followed by July (763) and September (720).
- 12 couples were wed on Valentine's Day - February 14.
- Most weddings in a day occurred on the 25th of August 2012 - 208 couples were wed on that day.
- 51 domestic partnerships were registered with Vital Statistics in 2012
- The majority of couples registering their domestic partnerships in 2012 were opposite sex couples, with same sex couples representing 22% of partnerships registered.
- 66.7% of partners had never been married previous to registering their partnership.

Glossary of Terms

Birth Rate
The number of live births divided by the mid-year population and converted to a rate per 1,000 population.

Birth Weight
The first weight of the fetus or newborn recorded after birth.

Domestic Partnership
A relationship between two individuals who are cohabiting or intend to cohabit in a conjugal relationship who have filed a domestic-partner declaration in accordance with the *Vital Statistics Act*

Gestation Period
The time between the conception and birth of an infant, recorded in completed weeks.

Infant Death
The death of a child aged between birth and one year of age.

Infant Mortality/Death Rate
The number of deaths of children under one year of age expressed as a rate per 1,000 live births.

Live Birth
A complete expulsion or extraction from the mother, irrespective of the duration of the pregnancy, of a fetus in which, after expulsion or extraction, there is breathing, beating of the heart, pulsation of the umbilical cord or definite movement of a voluntary muscle, whether or not the umbilical cord has been cut or the placenta is attached.

Live Birth Order
The number of live births to the mother, including this birth.

Low Birth Weight
A birth weight of less than 2,500 grams.

Marriage Rate
The number of marriages divided by the mid-year population and converted to a rate per 1,000 population.

Maternal Death
Death of a woman while pregnant or within 42 days of termination of pregnancy from causes related to the pregnancy, but not from accidental or incidental causes.

Maternal Death Rate
The number of maternal deaths divided by the number of live births and converted to a rate per 1,000 live births.

Mortality/Death Rate
The number of deaths divided by the mid-year population and converted to a rate per 1,000 population.

Natural Increase Rate
Excess of births over deaths expressed as a rate per 1,000 population. It does not include increases due to immigration or decreases due to emigration.

Neonatal Death
The death of an infant aged between birth and 28 days of age.

Population
Mid-year population estimates used in the preparation of this report were obtained from Statistics Canada, Demography Division.

Perinatal Period
The period commencing at 22 completed weeks of gestation and ending seven completed days after birth.

Stillbirth
The complete expulsion or extraction from its mother after at least twenty weeks pregnancy, or after attaining a weight of five hundred grams or more, of a fetus in which, after such expulsion or extraction, there is no breathing, beating of the heart, pulsation of the umbilical cord or unmistakable movement of voluntary muscle

Stillbirth Rate
The number of stillbirths divided by the number of live births and converted to a rate per 1,000 total births.

Teenage Mother
Mothers aged 19 or less at the date of birth.

Total Births
The number of live births plus stillbirths, used to calculate rates as in Stillbirth Rate above.

Vital Events
Births, deaths, stillbirths, marriages, and domestic partnerships; all events which have to do with an individual's entrance or departure from life, together with changes in civil status.
